

## Procurement Division

WE HELP DEALERSHIPS SAVE ON ENERGY SPEND ACTING AS A FULL-SERVICE ENERGY AND UTILITY CONSULTING AND PROCUREMENT PARTNER.

### ELECTRICITY PROCUREMENT

Our team of certified energy advisors takes the guesswork out of buying electricity. We continuously interact with the retail market. As a result, we have relationships with nearly every investment-grade supplier in North America – as well as some niche players who provide outstanding credit ratings. All this to bring the best energy products to you.

In addition to managing your Requests for Proposals (RFPs), contract negotiations and price risk assessments, we also provide you with complete energy management services including:

- Block Products
- Fixed Price Contracts
- Index Price Products
- Hybrid Products
- Government Regulation
- Sustainability

### NATURAL GAS PROCUREMENT

When used strategically, natural gas can be an important part of your energy management portfolio. And while it may be electricity's biggest competitor, natural gas may offer sizable savings. We build dynamic pricing strategies for natural gas procurement.

### THE PROCESS

- 1 months electricity bill copy
- Signed LOA & LOR
- 12 months bill copies for Natural Gas
- Signed LOA & LOR
- We will then run a proprietary RFP on your behalf
- Present cost analysis with top 8 to 10 supplier responses
- If favorable you will sign a contract with the winning supplier you chose with our guidance with terms that meet your risk appetite.
