

Waste Division Powered By Waste Network

WE HELP DEALERSHIPS SAVE ON WASTE EXPENSES ACTING AS A FULL-SERVICE WASTE AUDITING PARTNER.

We have over 31 years in the waste consulting and brokerage business and 97.6% of our clients have realized significant savings. Although we guarantee a minimum of a 10%, our average has been between 25-40% depending on the industry, location, and current contract.

VALUE PROPOSITION

- We understand waste hauling service providers contracts, fee structures and equipment programs.
- We will educate the client on all available services and equipment within their local service area.
- Our program provides full client transparency in the management, monitoring & auditing of designated waste service providers.
- We can become your single source waste program manager to handle multiple waste service providers, contracts, locations and consolidate for a single point of contact for all of your hauling needs; including service, billing and payment.
- Provide a no cost / no obligation waste audit to create a specific facility waste profile for each client location
- The program guarantees a minimum savings of 10% on current (bench mark) waste hauler service contracts or walk away with no client obligation or expense.
- We will manage all waste services on behalf of the client for the term of the agreement with no additional fees.
- The program is totally funded by the agreed upon rate structure of the WN waste audit profile for each location.

THE PROCESS

- 3 to 6 months of waste bill copies
- Signed LOA
- Signed one page service agreement
- We set the base line from present terms then design an updated process that best meets your needs that also delivers the savings moving forward.
